Old order paid this year:		
No 73—H. A. Lovell	\$	1.20
Unpaid orders this year:		
No. 53—Charles Austin	\$	1.00

In submitting my report to the auditors and taxpayers of the Town of Westminster, I wish to say that my allotment for town roads and cutting brush was \$650.50 and \$520.00 unselected money.

The 4-horse scraper was used 16 days with horses. The 2-horse scraper was used 4 days with horses. Fifteen stone culverts were repaired, partly or wholly rebuilt. One cost \$40.00. Two new culverts were put in. Three hundred and ninety truck loads of gravel were put on all roads in worst places. The brush was cut on all roads. One new bridge was built and 4 bridges were replanked.

Respectfully submitted,

A. C. BARNES.

SCHOOL REPORT

Report of the Superintendent of Schools

To the School Directors of Westminster:

I herewith submit my annual report to the school directors of Westminster and I am happy to report progress in all lines of work.

Progress is of slow growth; this is especially true in education. School progress has been slow but steady since Colonial days. Note how some of our ancestors looked on education. In 1729, Bernard Mandeville wrote the following in the Boston "Repertoire": "To make society happy and all the people easy in the meanest of circumstances they (the people) should be kept ignorant and poor." It has been but a little over one hundred years since Horace Mann founded the public school. Great changes have taken place since that time. Note what the late Calvin Coolidge said: "Those who believe in America, in her language, her arts, her literature and her science, will perpetuate them by perpetuating the education that has produced them". This is our aim in the Westminster schools. By all standards we are succeeding.

Today as never before we realize that if our beloved democracy is to endure we must not neglect education. Our schools must be uppermost in the minds of the people. In a democratic form of government like ours we must have an educated electorate. The citizens of the future are the children in our schools today.

Children must be trained for efficiency in order to carry on our work. Efficiency means a knowledge, not only of the three R's—reading, writing, arithmetic,—but of the social subjects, health subjects, and something of music and art. This program will give the pupils a well-rounded education so that they will not only be efficient but will be able to enjoy their leisure in a wholesome manner.

In order that we may accomplish the above program, there must be expert supervision, carefully trained teachers, a well balanced curriculum, adequate buildings and equipment, and an interested public. We believe that we have these in Westminster. There must be harmony and co-

operation if the best results are obtained. At this point I wish to state that there is an excellent spirit and fine co-operation in the school board. Harmony prevails.

During these times of depression we must keep up our courage. The future depends upon our schools of today. Our children are our nation's best asset. The high standard of our schools must not be lowered. We are in a period of great transition. "The old order changeth giving place to new". What the final outcome will be no one is able at present to foretell. But it is safe to say that great changes in education will take place in the next few years. School men must be ready to meet these changes. This transition may come slowly because old ideas and traditions die hard. When changes come it will be our task to deal with them in an intelligent manner. Our duty NOW is to give the boys and girls the very best that we know, trusting to Providence to do the rest.

In this changing order some educators propose to narrow the curriculum; others propose to broaden it; still others propose to change its contents. Some change is inevitable. Just as the automobile and the airplane have supplanted the slow plodding ox team so will modern education supplant that of the present.

Whatever the changes may be the American people will still believe in education. We as a nation believe in progress.

Methods may change, content of curriculum may change but education like Tennyson's brook goes on forever. The school is America's best gift to her people. The school stands for opportunity, progress and civic betterment. The school stands for good citizenship. In the Westminster schools citizenship is stressed. The study of civics, social sciences and moral training are made a vital part of every day's work. Childhood is the time to inculcate good ideas of living useful lives. The schools, therefore, stress the civic aim.

Health is a contributory factor to good citizenship. It is essential to good work. A sickly child is handicapped in his school work which means a life handicap. A great deal of poor school work and school failures can be traced to some physical defect, namely, adenoids, bad tonsils, poor teeth, impaired vision and other ailments. The

motto of every school should be: "A sound mind in a sound body."

It gives me pleasure to report that Westminster is not behind in looking after the health of her children. Dr. Oscar Burton, medical inspector, immunized 133 children against diphtheria, and 20 tonsil cases have been attended to, four private and sixteen clinical cases.

In connection with what has been done for the health of Westminster children I recommend that Westminster and Rockingham together hire an efficient school nurse. There are many excellent nurses who would be glad to do this work for a reasonable salary. To stimulate this work the Special Commission on Education recommends that the State match a moderate appropriation by the districts.

I recommend that a music teacher be engaged for the coming year.

The teachers have carried on a number of extra curricular activities. Miss Eddy's school has made visits to the Library; has had Hallowe'en and Christmas parties as well as a number of nature hikes. The music work in this school is progressing satisfactorily.

The Center School has observed all the holidays by suitable exercises. Several card parties for the benefit of the dental fund have been held. Last spring a school picnic was held at Lake Spofford. The children visited the Connecticut Valley Orchards, etc. Miss Green personally purchased a radio in order that her pupils might listen to the Damrosch Concerts.

Pine Banks School observed Book Week, and had suitable exercises on Armistice and Thanksgiving Days. Christmas was duly observed.

Miss Mable Young of Brookside has extra-curricular work in Band of Mercy Club, Nature Study, Four-H Club and hikes as well as observance of special days.

The Gageville School shows that both teachers are following closely the program of studies. The special activities in these schools have been many and varied. Besides observance of regular holidays, Book Week and Fire Prevention Week were observed with appropriate exercises. A harmonica band has been organized. As usual the music work in this school is of a high grade.

At Westminster West besides regular school work, with

emphasis on Social Science in Grades VII and VIII, appropriate exercises have been held at different times. The school has been organized into a club with weekly meetings.

As superintendent, I am happy to report that all the work in these schools is progressing and all teachers seem very much interested.

Respectfully submitted,
FRANCIS M. MALCOLM,
Superintendent of Schools.

REPORT OF MEDICAL INSPECTOR

In January, 1934, I was elected Medical Inspector for the Westminster Schools. I am therefore able to report a year's service. Instead of telling in my own words what has been accomplished, I am very glad to be able to copy from a report, just published, of a survey made by a Special Commission appointed two years ago by the Governor to investigate "Vermont's System of Education."

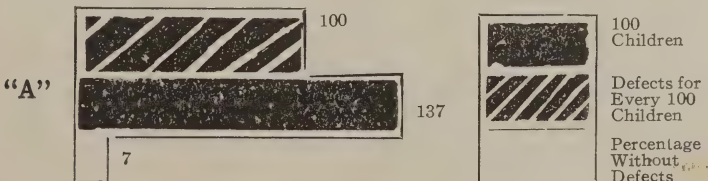

We should be proud of the very prominent place given to Westminster in the report of physical defects corrected, when compared to a survey of the towns of Windham County several years ago.

This could never have been accomplished without the cooperation of The Mutual Aid Assn., the medical and dental profession, the Red Cross, the P. T. A., and the teachers.

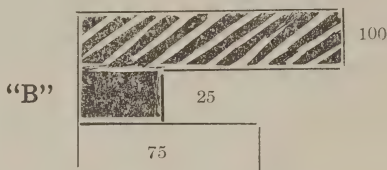

I copy from pages 141 and 142—"The town of Westminster affords a striking example of what may be accomplished unaided, by a community fully aroused to the extent of existing physical disabilities among school children.

When the survey of Windham Co. was made with the assistance of the Thompson Trust Fund, the condition among the school children as revealed by physical examinations are shown in Chart "A".

LEGEND

Conditions found after the work was completed are shown in Chart "B":

The parents and the school in cooperation inaugurated a campaign to correct this deplorable condition. Funds were provided by the school, local organizations, and individuals for carrying on the work. In a check up of the 207 children in Sept., 1934, it was found that 165 had corrected teeth defects, 20 had had eye corrections, and 19 had had tonsil and adenoid operations performed.

Conditions found after the work was completed are shown in Chart B."

A great deal has been accomplished, but much more needs to be done. We were able this year to organize a general clinic for tonsils and adenoids and succeeded in cleaning up all the cases we were able to pay for. We reduced the cost from \$19.00 to \$16.00 and so made the available fund go further.

Besides the dental, eye and throat work, I have stressed the importance of posture and physical exercises in the schools. We have also tried to correct nutritional defects by furnishing cod liver oil to those needing it. Hot lunches have been served in some of the schools, the labor having been paid for out of a federal fund.

For six years or more The Mutual Aid Assn. has furnished a school nurse without any expense to the Town School District. This year because of greatly reduced revenues from The Thompson Fund we have been deprived of this great help, and no one who has not been actively in touch with health work can realize how greatly it has handicapped our work since September.

While writing this I have just learned that a nurse, through federal funds, will soon be available for a short time. Her transportation, however, will not be paid.

What we need is a combined district and school nurse and I hope sometime Westminster will have one.

In July a meeting was held at the Institute which was well attended. Gageville and the West Parish were represented by their school directors and others. A reel, "Prevention of Diphtheria," was shown. Our good friend, Mr. Richards M. Bradley, trustees of The Thompson Fund and Miss Lillie Young, R. N., supt. of the Mutual Aid Assn., spoke on welfare work. The medical inspector spoke on diphtheria. Literature, from the State Health Dept., on modern methods of prevention and cards to be signed by parents, requesting that their children be given preventive treatment of toxoid were distributed.

I did not expect very great response but through the cooperation of the teachers considerable interest was aroused and during the fall term I held immunizing clinics in all of the schools and gave toxoid to 133, including 3 pre-school children. We are greatly indebted to Miss Lillie Young, R. N., for personally assisting in the clinics.

I feel very much encouraged, for this response certainly shows that you parents realize the need of preventive work and endorse what we are trying to do. It is more important to give toxoid to children 6 months to 6 years old, than to the older ones, unless they show reaction to the Schick Test, and there is practically no chance of any unfavorable reaction from the toxoid in the younger children. It is therefore hoped that all pre-school children will be immunized this year, the earlier after 6 months old the better. Let us do all we can to stamp out diphtheria in Westminster and in case of an epidemic, we will be very thankful that we have protected our children.

I sincerely hope that the citizens and parents of Westminster will feel it their personal duty to carry on the preventive and corrective work, which has been so well begun.

The mental efficiency of our children depends in large measure on their physical condition and it is really more important to correct physical defects than to train them mentally and it is fully as much the duty of the Town School District to see that it is done. If you appreciate the effort we have been making both to reduce general expenses and to improve the efficiency of our children, it

is up to you to see that sufficient appropriation is made to carry on corrective and preventive health work in our schools.

OSCAR A. BURTON, M. D.,
Medical Inspector.

School Directors' Report

Citizens, tax payers and especially you parents who are vitally interested in education, we submit the following report and hope that you will carefully consider the amounts expended and the comparative charts.

In accordance with your expressed wishes we have reduced expenditures to the minimum, and we hope, without appreciably lowering our standards.

We were obliged this school year to replace 50% of our teaching force and we are greatly indebted to Supt. Malcolm for the high grade teachers secured.

In the report just published, "Vermont's System of Education," under the head of "Conclusions and Recommendations," the commission says, "music and drawing are now recognized as essential elements in a well rounded school program" We agree with that statement; we need a music teacher in our schools and hope another year to employ one for at least part time.

Mrs. H. K. Brown of North Westminster kindly donated a piano to the department, which was placed in the Central School at the village.

We wish to call attention to cost of repairs which, in comparison to the very small sum spent a year ago, seems large. The interior of Sand Hill and Pine Banks Schools were put into excellent condition at a very low cost. The severe weather last winter caused extra expense because of a frozen pump and overflow from septic tank at Central School, also at Gageville. We have now insulated pump at Central School and relaid drain with more pitch and can be sure we shall have no more trouble there. In another year much more repair work will be absolutely necessary.

Our pupils are handicapped by having only 36 weeks

of school in comparison with 38 weeks in Rockingham and we recommend increasing our school year to 38 weeks as soon as possible.

We feel sure that it is impossible to reduce the cost of our schools any lower than we have done this year without lowering our present standards. We therefore recommend a tax of \$1.60 for schools the coming year.

E. P. WESTON,	} Directors.

Warning for Town Meeting - 1935

The Legal Voters of the Town of Westminster and the Town School District are hereby notified and warned to meet at the Community House in North Westminster on Tuesday, March 5th, 1935, at 10 o'clock A. M. to act on the following articles, viz.:

ARTICLE I. To elect a Moderator.

ART. II. Shall licenses for the sale of malt and vinous beverages be granted in this town?

ART. III. Shall spirituous liquors be sold in this town?

ART. IV. To act upon the report of the auditors.

ART. V. To see if the Town will empower and authorize its Selectmen to appoint one or two road commissioners.

ART. VI. To elect a Town Clerk and all other officers required by law to be elected at the Annual Meeting and Town School District Meeting.

ART. VII. To elect a Trustee of the Campbell Fund for three years.

ART. VIII. To elect a Commissioner of the Campbell Fund.

ART. IX. To elect a Cemetery Commissioner for five years.

ART. X. To elect a Trustee of Public Money for a term of three years.

ART. XI. To see if the Town will vote a sum of money for the upkeep of the Cemeteries.

ART. XII. To raise money to pay the indebtedness of the Town, support the poor, and repairs of highways and bridges and other expenses of the Town.

ART. XIII. To see what method the Town will adopt for the collection of its taxes.

ART. XIV. To see if the town will authorize and instruct its Selectmen and Treasurer to borrow money if necessary for its current expenses prior to the collection of its taxes.

ART. XV. To see if the Town School District will vote to appropriate money for the maintenance of its public schools, if so, how much?

ART. XVI. To see if the Town School District will vote to pay the full amount of tuition for scholars now attending or who may attend high schools or academies without the Town and provide means therefor.

ART. XVII. To see if the Town School District will vote to have medical inspection in its schools.

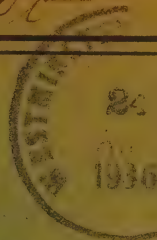

ART. XVIII. To see if the Town School District will authorize its Treasurer, subject to the approval of the Board of School Directors, to borrow money in anticipation of taxes to meet its requirements for the ensuing year.

ART. XIX. To transact any other business proper to be brought before either of said Meetings.

H. I. RHOADES,	} Selectmen of Westminster.

In submitting my report to the Auditors and taxpayers of the Town of Westminster as Road Commissioner of the West Parish, I wish to say that my allotment for the town roads was \$654.00. In addition to this I was allotted \$1,222.00 unselected money. Thirty cents per hour was paid for labor, 60 cents per hour for teams and \$1.20 per hour for trucks 2 yd capacity.

The 4-horse scraper was not used as much as usual, the two-horse scraper and drag was used some, but more graveling was done. Fifteen stone culverts were repaired and 8 new culverts were put in. Four new bridges were built and one replanked. Fifteen hundred yards of gravel and filling were put on the roads and some brush was cut. From one to three trucks were available at all times and plenty of help, except 10 days through haying.

Respectfully submitted,

A. C. BARNES.

SCHOOL REPORT**Report of the Superintendent of Schools**

To the School Directors of the Town of Westminster:

"In Vermont we spend two and a half per cent of our income for public schools. We spend seven and a half per cent of out income for other governmental purposes including highways. For passenger automobiles we spend seventeen and a half per cent of our income."

The money spent by the town for last year's schooling is only 71.7% of that provided nine years ago.

The money spent per pupil per year has dropped from \$100.37 in 1925-1926 to \$69.83 in 1934-1935 (February 1—January 31).

1925-1926—\$22,083.45.

1934-1935—\$15,851.55.

Everyone has good reasons for wanting his children to be educated. Each citizen wants his children to grow up equipped for successful living. He realizes that education becomes more important each succeeding generation. Since the world is becoming more complex, more education is needed to solve its problems. If our American form of government is to be a continued success, children must be educated to be public-minded, co-operative and interested in civic affairs.

The State is assuming a larger share of the cost of its public schools. By doing this the burden of taxation becomes more equally distributed and educational opportunities will become more nearly equalized. Many people move about over the State and poor schooling in one town means poorly qualified citizens not only in that town but wherever poorly schooled people go. The State as a whole is concerned with the education of its citizens and thus is interested in the schools of every town. The State has a responsibility to help any towns needing help in order that it may have adequate schools.

People have begun to realize that it is unfair to have too large a part of the cost of the schools and other public services carried by the property tax. By taxing incomes and business the load is distributed on the basis of ability to pay. Property should pay for its own protection, but

other publicly supplied services may very fairly come out of earnings.

The legislature in 1935 increased the State's part of the total cost of the public schools from 10.1% in 1934-1935 to about 17% in 1935-1936. This was done on the recommendation of the Vermont Educational Commission and was an important step in the direction of having the State assume a fairer share of the load. The reimbursement by the State is now based on "equated" pupils. After the town contributes to its own schools 17% of the grand list, the State adds to this enough to make \$15.00 per "equated pupil." The local contribution is less per equated pupil for poorer towns and hence they receive more State help.

The Pine Banks School needs a new heater, movable desks and playground equipment.

The Center School needs movable desks and playground equipment. Ten movable desks have already been purchased for this school.

The Upper Street School needs movable desks.

The Gageville School needs new seats. This school is fortunate in having an active Parent-Teacher Organization.

Two new chairs and a new teacher's desk have been purchased with prize money received by the Brookside School when it was standardized. Land has been rented to increase the size of the playground.

The Westminster West School has the best room in the town, and is well equipped for efficient work.

All the teachers in town are now receiving eight hundred fifty dollars per year. We should raise our average to nine hundred dollars next year.

Resident Pupils

Elementary pupils, resident in town	246
High School pupils, resident in town	49
Total pupils, resident in town	295
Elementary pupils sent to school out of town	19

Respectfully submitted,

FRANCIS M. MALCOLM
Superintendent of Schools.

REPORT OF HEALTH OFFICER

I have not been notified in the past two years who was printing the Town Report and therefore my report was not included.

Just a few words about milk licenses. All persons selling milk in the Town of Westminster should have a license from the health officer. In a recent letter from Dr. Dalton, Secretary of the State Board of Health, he states: "The only 'state license' for milk is that of the Milk Control Board which simply regulates the price. This board has nothing whatever to do with the sanitary quality of the milk and does not interfere with the license issued by the health officer."

A letter from the Milk Control Board of Montpelier states: "We are associated in no way with the town boards of health which also issue licenses." Therefore all persons selling milk in any way in the Town of Westminster must have a license each year from the local health officer.

We have had only a limited number of cases of communicable diseases the past year. German measles, 85; mumps, 7; scarlet fever, 6; chicken pox 13 and whooping cough, 9.

I would recommend that the Town vote at Town Meeting to have medical inspection of the schools for the coming year in order to take advantage of the Bradley Fund and I will be glad to make two inspections of all schools without cost to the town in connection with my work as health officer.

I hope we may be able to continue with the clinics and I will do all I can to help with this work in the future.

Respectfully yours,

✓ W. D. BOWEN,

Health Officer.

REPORT OF MEDICAL INSPECTOR

Last year I wrote a very complete report of health work accomplished. This year my report will be more brief. Although we have not accomplished as much in preventive and corrective work as we hoped, still the amount has been considerable and for the money expended has been very great. We still lead other towns in our health program. With better co-operation, the work done might have been much greater.

I emphasized the special need of immunization against diphtheria among pre-school children over six months old, but there was no response among you parents. It is a mistake to wait until a child enters school before he is given a dose of toxoid.

While I was writing last year's report I received the welcome notice that we were to have the help of a federal nurse. Mrs. Taggart proved to be very efficient and helped wonderfully in our work during the time we were able to keep her. I was then able to make the annual medical inspection which should have been made earlier in the year. After that I gave Schick tests to 182 and vaccinated 94 for small pox.

Miss Davis, the dental hygienist, attended to having the teeth cared for as formerly, but during the fall of 1935 we were able to make arrangements with Mrs. Persons, D. D. D., to do our work at reduced rates which helps in the work needing to be done. The cost in tonsil and adenoid clinics was further reduced, making the Red Cross and P. T. A. funds go farther and leaving more available for correction of defective vision.

The teachers have worked with us to control and limit contagious diseases and except for an extensive epidemic of German measles, regular school attendance has not been greatly interfered with.

The class from the primary room at the Center School entering the upper room contained more pupils this fall of smaller size, so that the desks available were not suited to them. Therefore, it was found necessary to buy a few new seats of the adjustable type. These and the interest of the teachers in all the schools have helped in improved posture, which is all-important.

Many of the schools are also doing good work in short periods of physical exercises, which relax the muscles and aid in study.

For real effective health service in our schools I wish to emphasize the necessity for continued effort with an efficient organization under medical supervision and aided by a trained nurse in co-operation with the teachers.

Examination of the amount expended for health work this year as given in this report will show you that it should be really \$100.00 less, as the cost of giving toxoid last year is included and because of having to wait until spring for the federal nurse, the annual inspection for that year was delayed until spring and it brings both that and inspections for this year into this report.

OSCAR A. BURTON, M. D.,
Medical Inspector.

Report of School Directors

To the Town of Westminster, your school board submits the following:

We would first call your attention to the extra expense incurred by reason of the town school district funds being kept separate from other town monies. The items are as follows: delinquent taxes, collection, interest on borrowed money, bonding treasurer, tax book and making, postage and printing. This should be considered when voting amount to be used for school purposes. Also arrangement should be made to financially cover the period between Feb. 1 and June 30; the latter date now being the ending of our school year.

Had our bills come and been paid to correspond with one year ago there would be approximately \$1,300.00 addition to expenses shown.

Some necessary repairs have been made, but the matter of expense has been kept strictly in mind. However, during the coming year considerable more money must be spent in order to preserve our school property.

We find quite a saving on fuel by buying our coal by

the car load, also we wish to call your attention to the reduction in cost of books and supplies as compared with previous years. We were able to borrow money at 4% rate of interest which seemed quite reasonable.

The tuition which we are obliged to pay, owing to the number of pupils, is running high at present; as you will later note.

We regret that apparently little or no attention is paid by our townspeople to the amount recommended for school purposes in recent years.

Said recommendation for the ensuing year is \$1.65.

E. P. WESTON, OSCAR A. BURTON, ERNEST E. BEMIS.	}	Directors.

Warning for Town Meeting - 1936

The Legal Voters of the Town of Westminster and the Town School District are hereby notified and warned to meet at the Town Hall in Westminster on Tuesday, March 3rd, 1936, at 10 o'clock A. M. to act on the following articles, viz.:

ARTICLE 1. Shall an act of a special session of the general assembly held in December, 1935, entitled An act for the establishment of a national park known as the Green Mountain Parkway, limiting the lands held therefor, prescribing the jurisdiction to be retained by the state, making an appropriation in connection therewith and providing for a bond issue," become a law April 1, 1936.

ART. II. To elect a Moderator.

ART. III. Shall licenses for the sale of malt and vinous beverages be granted in this town?

ART. IV. Shall spirituous liquors be sold in this town?

ART V. To act upon the report of the Auditors.

ART. VI. To see if the Town will empower and authorize its Selectmen to appoint one or two road commissioners.

ART VII. To elect a Town Clerk and all other officers required by law to be elected at the Annual Meeting and Town School District Meeting.

ART VIII. To elect a Trustee of the Campbell Fund for three years.

ART. IX. To elect a Commissioner of the Campbell Fund.

ART X. To elect a Cemetery Commissioner for five years.

ART. XI. To elect a Trustee of Public Money for a term of three years.

ART XII. To see if the Town will vote a sum of money for the upkeep of the Cemeteries.

ART XIII. To see if the Town will authorize the selectmen to purchase equipment for the removal of snow from highways and provide means therefor.

ART. XIV. To see if the Town will authorize the selectmen to purchase snow fences to be used in protecting highways from drifting snow in places most likely to be blocked by drifts, and provide means therefor.

ART. XV. To raise money to pay the indebtedness of the Town, support the poor, and repairs of highways and bridges and other expenses of the Town.

ART. XVI. Will the Town and Town School District vote to collect taxes on real and personal property in installments.

ART. XVII. To see if the Town will vote to charge interest upon delinquent taxes and establish the rate thereof, when the same are payable in installments.

ART. XVIII. To see if the Town will vote to have its poll and old age assistance taxes payable upon the same date the first installment of real and personal property taxes are due.

ART. XIX. To see what method the Town will adopt for the collection of its taxes.

ART. XX. To see if the Town will authorize and instruct its Selectmen and Treasurer to borrow money if necessary for its current expenses prior to the collection of its taxes.

ART. XXI. To see if the Town School District will vote to appropriate money for the maintenance of its public schools, if so, how much?

ART. XXII. To see if the Town School District will vote to pay the full amount of tuition for scholars now attending or who may attend high school or academies without the Town, and provide means therefor.

ART. XXIII. To see if the Town School District will vote to have medical inspection of its schools.

ART. XXIV. To see if the Town School District will authorize its Treasurer subject to the approval of the Board of School Directors, to borrow money in anticipation of taxes to meet its requirements for the ensuing year.

ART. XXV. To transact any other business proper to be brought before either of said Meetings.

W. H. POWERS,	} Selectmen of Westminster.
R. R. RANNEY,	
H. I. RHOADES,	

Westminster, Vermont, February 18, 1936.
